W. O. Miller, a superintendent on the Canadian-Pacific Railway, and now visiting in Honolulu states that it is his belief that tourist travel from the Canadian northwest section to Honolulu will increase wonderfully during the coming season. He gives for his reason in such belief the fact that crops and other business ventures have been good in his section of the country, money being plenty and in such an event travelling is in consequence.

Mr. Woolsey found the dead body of a newborn infant on Kalaikaua avenue, yesterday morning while on his way to town. It is thought to be either a Chinese or Japanese infant. The matter has been turned over to the local police for investigation. The investigating officer states that the body is that of a child nearly nine months old. This makes the fifth find of infants' bodies in that locality in less than five years, and strange as it may seem, Mr. Woolsey has found three of the five.

Another sudden death occurred yesterday afternoon, John Hanu, while playing cards with five other companions continually complained of a severe headache. As the game progressed Hanu made peculiar motions with his mouth and finally fell forward with his face on the table. When those about raised his head they found that he was dead. An autopsy, ordered by Charles Rose, was held by Dr. McDonald, who gave the cause of death as rupture of aneurism of the aorta. There will be no inquest.

The rest of his court was captured, together with evidence that will make the case clear.
